1. Human Resource Planning (HRP) and Its Relationship with Business Strategy

Meaning — Human Resource Planning is the systematic process of forecasting an organisation's future workforce needs, assessing its existing employees and planning how to close skill or staffing gaps. It aims to ensure the right people with the right skills are available at the right time.

Key points and explanations

- Key activities: recruitment and selection, training and development, succession planning and workforce optimisation.
- Relationship with business strategy: business strategy defines long-term goals; HR strategy develops the people-related plans needed to achieve them.
- HRP as a bridge: identifies skill gaps, turnover trends and workforce demographics, then plans hiring, training or cost optimisation.
- Examples: international expansion requires multilingual staff and cross-cultural training; customer-experience goals require service-oriented recruitment and service training.
- Dynamic nature: during downturns, HR may prioritise retention and reskilling; during growth, it may increase recruitment and development.
- Strategic value: HRP makes the organisation adaptable to technological, market and regulatory changes.

Quick revision: Forecast workforce needs → identify gaps → recruit/develop/retain → review alignment with business goals.

2. Concept, Aim and Functions of Human Resource Management

Meaning — Human Resource Management (HRM) is the strategic and operational process of managing people through policies and practices that influence employee behaviour, performance and development. It balances organisational requirements with employee needs.

Key points and explanations

- Aim: maximise organisational effectiveness by improving employee performance and engagement while creating a positive work environment.
- Talent acquisition and retention: attract and retain people with the required skills.
- Training and development: improve employee capabilities through onboarding, workshops and career development.
- Performance management: set goals, monitor progress, provide feedback and address performance gaps.
- Compensation and benefits: design fair and competitive pay, incentives and benefits.
- Employee relations: manage communication, grievances and conflict; promote a supportive workplace.
- Legal compliance: follow labour laws, safety requirements and ethical standards.
- HRM aligns employee potential with organisational mission, vision and strategic goals.

Quick revision: HRM = people management; core functions: acquire, develop, appraise, reward, maintain relations and ensure compliance.

3. Nature of Diversity in Organisations and Reasons for Its Emergence

Meaning — Organisational diversity refers to differences among employees in characteristics, backgrounds, experiences and perspectives. It includes visible and less visible differences.

Key points and explanations

- Demographic diversity: age, gender and ethnicity.
- Cognitive diversity: differences in thinking, problem-solving styles and expertise.
- Cultural diversity: different traditions, languages, values and worldviews.
- Globalisation: organisations recruit across borders and serve international markets.
- Changing demographics: generational differences and increased participation of women and minority groups change workforce composition.
- Legal and ethical pressures: equal-opportunity expectations and anti-discrimination requirements encourage inclusive practices.

- Economic and competitive factors: varied perspectives can support creativity, innovation and understanding of diverse customers.
- Managing diversity requires inclusive policies and deliberate efforts to reduce misunderstanding and conflict.

Quick revision: Three forms: demographic, cognitive, cultural. Drivers: globalisation, demographics, law/ethics and competitiveness.

4. Objectives of Intellectual Property Rights (IPR) and Its Types

Meaning — Intellectual Property Rights are legal rights that protect creations of the mind and give creators or owners control over the use of their intellectual work for a specified period or under defined conditions.

Key points and explanations

- Objectives: encourage creativity and innovation; recognise creators; protect original work from unauthorised use; support commercialisation and investment; promote research and knowledge creation.
- Patents: protect qualifying inventions and grant the owner exclusive rights for a limited period, subject to legal requirements.
- Copyright: protects original literary, artistic, musical, dramatic and other eligible creative works.
- Trademarks: protect distinctive signs, names, symbols or logos that identify goods or services.
- Industrial designs: protect the visual or ornamental appearance of a product.
- Geographical indications: identify goods whose qualities or reputation are linked to a particular geographical origin.
- Trade secrets: protect valuable confidential business information, such as formulas or processes, when secrecy is maintained.

Quick revision: IPR protects creations and encourages innovation. Distinguish patent, copyright, trademark, design, GI and trade secret.

5. Ways of Fitting HR Practices into Business Strategy

Meaning — Strategic HR alignment means designing HR policies and activities so that employee capabilities and behaviour support the organisation's business objectives.

Key points and explanations

- Understand business direction: identify the organisation's mission, competitive strategy, targets and future capability needs.
- Workforce planning: forecast the number and type of employees required and identify current skill gaps.
- Recruitment and selection: hire people whose competencies and values fit strategic needs.
- Training and development: build skills required for new technology, service quality, innovation or expansion.
- Performance management: translate business goals into measurable individual and team objectives.
- Compensation and rewards: reinforce behaviours and results that support strategic priorities.
- Culture and communication: communicate strategic priorities and encourage the values needed to achieve them.
- Evaluation: use workforce and business indicators to check whether HR practices are producing the desired results.

Quick revision: Business strategy → required capabilities → HR practices → employee performance → business results.

6. Individual and Organisational Approaches to Managing Diversity

Meaning — Diversity management involves recognising workforce differences, ensuring fair treatment and creating conditions in which employees can contribute effectively.

Key points and explanations

- Individual approaches: develop self-awareness; recognise personal biases; show respect and empathy; communicate across differences; listen actively; remain open to learning; challenge stereotypes and discriminatory conduct.
- Organisational approaches: establish equal-opportunity and anti-discrimination policies; use fair recruitment and promotion; provide diversity and inclusion training; create grievance and reporting systems; support flexible work where appropriate; ensure accessible workplaces; encourage inclusive leadership.
- Organisational culture: value different perspectives, make participation equitable and hold leaders accountable for inclusion.
- Benefits: improved collaboration, innovation, employee engagement and ability to serve diverse customers.
- Challenges if poorly managed: stereotyping, communication barriers, exclusion and interpersonal conflict.

Quick revision: Individual level = awareness and respectful behaviour; organisational level = policies, systems, leadership and accountability.

7. Types, Effects and Prevention of Workplace Violence

Meaning — Workplace violence includes acts or threats of physical force, intimidation, harassment or other harmful behaviour occurring in connection with work.

Key points and explanations

- Types: criminal intent (violence associated with robbery or another crime); customer/client violence; worker-on-worker violence; personal-relationship violence that enters the workplace.
- Forms may include physical assault, threats, verbal abuse, intimidation, harassment and bullying.
- Effects on employees: physical injury, fear, stress, anxiety, reduced morale and psychological harm.
- Effects on organisations: absenteeism, turnover, reduced productivity, damaged reputation, legal costs and unsafe working conditions.
- Prevention: assess risks; establish clear anti-violence policies; train staff and managers; provide reporting channels; investigate complaints promptly; improve access control and physical security; offer employee support.
- Collaboration: coordinate with relevant authorities and emergency services when required; conduct preparedness drills.

Quick revision: Recognise types and effects; prevention combines policy, reporting, training, risk assessment and security.

8. Strategies and Significance of Human Resource Development (HRD)

Meaning — Human Resource Development is the planned development of employees' knowledge, skills and capabilities to improve individual and organisational performance.

Key points and explanations

- Strategies: training and skill development through workshops, e-learning and on-the-job learning; career development and succession planning; performance feedback and coaching; organisational learning and knowledge sharing; leadership development; technology-enabled learning such as learning management systems.
- Enhanced performance: skilled employees work more effectively and confidently.
- Adaptability: reskilling prepares employees for technological and market changes.
- Retention and engagement: development opportunities can improve morale, loyalty and job satisfaction.
- Competitiveness: a capable workforce supports innovation and organisational performance.
- Succession and stability: preparing employees for future roles supports continuity.
- Strategic alignment: HRD ensures employee capabilities match organisational priorities.

Quick revision: HRD strategies develop people; significance includes performance, adaptability, retention, competitiveness and succession.

9. Dilemmas Faced by HR Heads Due to Globalisation

Meaning — Globalisation creates opportunities for international growth but requires HR leaders to manage differences in culture, labour markets, regulation and technology.

Key points and explanations

- Cultural diversity versus uniform policies: standardised policies may conflict with local customs and expectations.
- Talent acquisition and retention: global competition makes it difficult to attract and retain skilled employees across different labour markets.
- Regulatory compliance: employment, tax, privacy and labour laws differ between countries and may change.
- Cost efficiency versus employee expectations: controlling costs must be balanced with fair and locally appropriate pay and benefits.
- Technology and remote work: unequal infrastructure and differing work practices can affect access and team cohesion.
- Ethical and social responsibility: global operations must maintain ethical standards and respect local communities and employee rights.
- HR leaders must balance global consistency with local adaptation.

Quick revision: Central dilemma: global consistency versus local responsiveness, while balancing talent, compliance, cost and ethics.

10. Relevance and Ways of Managing Time and Anger

Meaning — Time management is the planned use of time to complete important tasks efficiently. Anger management involves recognising and regulating anger so that it does not harm relationships or work performance.

Key points and explanations

- Time-management methods: set priorities; distinguish urgent from important tasks; plan daily and weekly activities; break large tasks into smaller steps; set realistic deadlines; avoid unnecessary interruptions; delegate where suitable; review progress.
- Useful planning tools include schedules, task lists, calendars and time blocks.
- Anger-management methods: identify triggers; pause before responding; use slow breathing or relaxation; express concerns assertively rather than aggressively; examine assumptions; listen to others; seek constructive solutions.
- Workplace relevance: better time management reduces stress and missed deadlines; anger management supports communication, decision-making and healthy relationships.
- Prevention: maintain realistic workloads, take breaks and seek support when conflict or stress becomes difficult to manage.

Quick revision: Time: prioritise, plan, schedule, act, review. Anger: recognise, pause, regulate, communicate, resolve.

11. Principles, Goals, Significance and Factors Affecting Human Resource Planning

Meaning — Human Resource Planning ensures that an organisation has an adequate number of appropriately skilled employees when and where they are needed.

Key points and explanations

- Principles: link workforce plans with organisational strategy; use reliable information; forecast demand and supply; involve relevant managers; maintain flexibility; review plans regularly.
- Goals: avoid shortages and surpluses; ensure the right skills are available; support growth and change; improve utilisation; prepare for succession; control staffing costs.
- Significance: improves productivity, reduces recruitment disruption, supports training and development, prepares the organisation for change and strengthens strategic decision-making.
- Internal factors: organisational objectives, budget, technology, structure, employee turnover, retirements, promotions and existing skills.
- External factors: labour-market conditions, economic trends, demographic changes, competition, legislation, education and technological developments.
- Basic process: analyse objectives; assess current workforce; forecast future demand and supply; identify gaps; plan recruitment, training or redeployment; monitor outcomes.

Quick revision: HRP process: current workforce → forecast demand/supply → gap analysis → action plan → evaluation.

12. Human Rights and Laws Related to Human Rights in India

Meaning — Human rights are basic rights and freedoms belonging to every person by virtue of being human. In India, constitutional guarantees and statutory institutions provide frameworks for their protection.

Key points and explanations

- Constitutional foundations: the Preamble's commitment to justice, liberty, equality and fraternity; Fundamental Rights in Part III; Directive Principles in Part IV; and duties and safeguards relevant to dignity.
- Important constitutional protections include equality before law (Article 14), prohibition of discrimination on specified grounds (Article 15), equality of opportunity in public employment (Article 16), freedoms under Article 19, protection of life and personal liberty (Article 21), and protection against exploitation (Articles 23–24).
- Protection of Human Rights Act, 1993: provides for the National Human Rights Commission and State Human Rights Commissions and related human-rights protection mechanisms.
- Other relevant legal protections may include laws addressing child labour, bonded labour, workplace sexual harassment, disability rights and protection of vulnerable groups.
- Human rights institutions and courts can examine complaints and promote awareness, safeguards and remedies.
- Exam focus: explain rights, constitutional provisions, the 1993 Act and the role of institutions. Check current legal wording before citing specific amendments or provisions.

Quick revision: Remember Articles 14, 15, 16, 19, 21, 23 and 24; Protection of Human Rights Act, 1993.

13. Relevance of the Big Five Personality Traits

Meaning — The Big Five model describes personality through five broad dimensions that help explain differences in behaviour and work preferences.

Key points and explanations

- Openness to experience: curiosity, imagination and willingness to try new ideas; may support creativity and adaptability.
- Conscientiousness: organisation, dependability, discipline and goal-directed behaviour; often relevant to reliability and task performance.
- Extraversion: sociability, assertiveness and energy; may be useful in roles involving interaction and persuasion.
- Agreeableness: cooperation, trust and consideration; supports teamwork and interpersonal relationships.
- Neuroticism (low emotional stability): tendency to experience negative emotions such as anxiety or worry; emotional stability can help manage work stress.
- Workplace relevance: recruitment, team composition, leadership development, career guidance and understanding individual differences.
- Personality should not be used as the sole basis for selection; consider job requirements, skills and fairness.

Quick revision: OCEAN: Openness, Conscientiousness, Extraversion, Agreeableness, Neuroticism.

14. Principles of Management by Henri Fayol

Meaning — Henri Fayol proposed 14 principles of management as general guidelines for organising and managing work.

Key points and explanations

- Division of work: specialisation improves efficiency.
- Authority and responsibility: managers need authority corresponding to their responsibility.
- Discipline: respect rules and agreements.
- Unity of command: each employee should receive orders from one superior.
- Unity of direction: activities with the same objective should follow one plan.
- Subordination of individual interest: organisational interests take priority over individual interests when they conflict.
- Remuneration: provide fair compensation.
- Centralisation: determine an appropriate balance between centralised and decentralised authority.
- Scalar chain: establish a clear line of authority.
- Order: place people and resources appropriately.
- Equity: treat employees with fairness and kindness.
- Stability of tenure: provide reasonable employment continuity.
- Initiative: encourage employees to propose and carry out ideas.
- Esprit de corps: promote team spirit and unity.

Quick revision: Memorise all 14 principles; common distinctions: unity of command = one boss; unity of direction = one plan.

15. Corporate Social Responsibility (CSR): Significance and Types

Meaning — Corporate Social Responsibility refers to an organisation's responsibility to consider the social, environmental and ethical effects of its activities, alongside economic objectives.

Key points and explanations

- Significance: supports sustainable development; builds trust and reputation; strengthens stakeholder relationships; contributes to communities; encourages ethical conduct; can improve employee pride and engagement.
- Environmental responsibility: conservation, waste reduction, energy efficiency and pollution control.
- Philanthropic/community responsibility: donations, education, healthcare and community development.
- Ethical responsibility: fair treatment, human rights, safe working conditions and responsible business practices.
- Economic responsibility: operate sustainably and create value while considering social and environmental impacts.

• CSR activities should be connected to genuine organisational responsibility rather than treated only as publicity.

Quick revision: CSR dimensions: economic, legal, ethical and philanthropic; common activity areas include environment and community.

16. Perception and Creativity in the Context of an Organisation

Meaning — Perception is the process by which individuals select, organise and interpret information to make sense of their environment. Creativity is the ability to generate ideas that are novel and useful.

Key points and explanations

• Perception process: information is received, selected, organised and interpreted; past experience, expectations, values and context influence interpretation.

• Workplace effects: perception shapes communication, judgement, decision-making, performance appraisal and interpersonal relationships.

• Common perceptual errors: stereotyping, halo effect, selective perception and projection can distort judgement.

• Creativity: generation of original and useful ideas, solutions or methods.

• Factors supporting creativity: knowledge, curiosity, autonomy, supportive leadership, psychological safety, diversity of perspectives and time for exploration.

• Organisational applications: innovation, problem-solving, process improvement, product development and adaptation to change.

• Managers should reduce perceptual bias and create conditions in which employees can express and test ideas.

Quick revision: Perception = interpreting information; creativity = producing novel and useful ideas.

17. Various Types of Employee Choice Plans

Meaning — Employee choice plans are workplace arrangements that give employees options in selecting benefits or aspects of their employment package, according to organisational policy.

Key points and explanations

- Flexible benefit/cafeteria plans: employees choose from a menu of benefits within a defined budget or allowance.
- Core-plus options: employees receive a basic set of benefits and select additional options.
- Modular plans: employees select from pre-designed benefit packages suited to different needs or life stages.
- Flexible spending or reimbursement arrangements: employees allocate eligible funds to approved benefit expenses, subject to plan rules.
- Choice may relate to health coverage, retirement contributions, leave, wellness benefits or other permitted options.
- Advantages: greater personalisation, perceived control and satisfaction; potential limitations include administrative complexity, cost and the need for clear communication.

Quick revision: Core idea: flexibility and employee choice in benefits; exact plan design depends on employer policy and applicable law.

18. Characteristics and Stages of Creating a Multicultural Organisation

Meaning — A multicultural organisation recognises and values cultural differences and ensures that people from varied backgrounds can participate and progress fairly.

Key points and explanations

- Characteristics: workforce diversity; inclusive policies; equal opportunity; respect for cultural differences; open communication; fair participation in decisions; low tolerance for discrimination; inclusive leadership.
- Stage 1 — Exclusionary: certain groups are excluded or face barriers.
- Stage 2 — Club: limited diversity is present, but newcomers are expected to fit the dominant culture.
- Stage 3 — Compliance: the organisation meets legal requirements and begins formal equal-opportunity efforts.
- Stage 4 — Affirmative action: active steps are taken to improve representation and address past barriers.
- Stage 5 — Redefining: policies, structures and culture are reviewed to remove systemic barriers.
- Stage 6 — Multicultural: diversity and inclusion are embedded in organisational values, practices and decision-making.
- Creating such an organisation requires leadership commitment, fair systems, training, accountability and continuous evaluation.

Quick revision: Progression: exclusion → club → compliance → affirmative action → redefining → multicultural.

19. Need for Training and Development and Three Cognitive Methods

Meaning — Training improves skills and knowledge needed for current work, while development prepares employees for broader or future responsibilities.

Key points and explanations

- Need: improve job performance; close skill gaps; prepare for technological change; reduce errors; support career growth; develop leaders; improve adaptability and organisational effectiveness.
- Cognitive methods focus on mental processes such as understanding, reasoning, problem-solving and decision-making.
- Information-processing method: present information in a structured way so learners can receive, organise, store and retrieve knowledge.
- Decision-making method: use cases, scenarios and exercises to practise evaluating alternatives and selecting appropriate actions.
- Problem-solving method: use real or simulated work problems to develop analysis, reasoning and solution generation.
- Effective programmes identify learning needs, set objectives, select methods, provide practice and evaluate learning transfer to the job.

Quick revision: Training = current-job competence; development = future growth. Cognitive learning emphasises thinking and understanding.

20. Human Rights: Violations, Laws and Responses

Meaning — Human-rights violations occur when individuals or institutions deny, restrict or abuse the basic rights and freedoms of people.

Key points and explanations

- Examples: discrimination; violence and torture; trafficking; forced or bonded labour; child labour; denial of education; exploitation; unlawful detention; denial of equal opportunity; harassment.
- Responses: report violations to appropriate authorities; seek legal assistance and remedies; use human-rights commissions and other statutory bodies; preserve evidence; provide victim support and rehabilitation; promote awareness and prevention.
- Legal safeguards in India include constitutional Fundamental Rights and laws addressing specific forms of exploitation and discrimination.
- Organisational response: adopt non-discrimination policies, safe reporting mechanisms, fair investigations, protection against retaliation and employee education.
- Prevention requires accountability, accessible complaint systems, public awareness and enforcement of law.

Quick revision: Identify the right affected → document/report → seek protection and remedy → prevent recurrence.

21. Process and Benefits of Performance Appraisal

Meaning — Performance appraisal is a systematic assessment of an employee's work performance against agreed expectations or standards.

Key points and explanations

- Set performance standards and objectives that are clear and measurable.
- Communicate expectations and explain how performance will be assessed.
- Monitor performance and collect relevant evidence over the review period.
- Conduct the appraisal discussion, compare results with standards and identify strengths and gaps.
- Provide constructive feedback and agree on development actions or improvement plans.
- Use results appropriately for training, career planning, recognition, promotion or other HR decisions.
- Benefits: clarifies expectations; improves communication; identifies training needs; recognises good performance; supports career development; aligns individual work with organisational goals.
- Appraisal should be fair, evidence-based, consistent and free from bias.

Quick revision: Standards → communication → observation → evaluation → feedback → development/action.

22. Six Sigma Interventions and Human Resource Professions

Meaning — Six Sigma is a data-based approach to improving processes by reducing defects, errors and variation. HR professionals support its implementation through people-related systems.

Key points and explanations

- DMAIC cycle: Define the problem and customer requirements; Measure current performance; Analyse causes of defects; Improve the process; Control results to sustain gains.
- HR contribution: identify training needs; develop employee competencies; support change communication; facilitate teamwork; align performance measures and recognition with improvement goals.
- Human resource professions may include HR generalist, recruiter/talent acquisition specialist, learning and development professional, compensation and benefits specialist, employee-relations specialist, HR business partner and HR analyst.
- Six Sigma interventions can improve HR processes such as recruitment cycle time, payroll accuracy, training administration and employee-service delivery.
- Success depends on leadership support, employee involvement, reliable data and continuous monitoring.

Quick revision: DMAIC = Define, Measure, Analyse, Improve, Control; HR enables capability and change.

23. Future Role of HR Professionals

Meaning — The future HR professional acts as a strategic partner who aligns people practices with organisational goals while supporting employees through technological and social change.

Key points and explanations

- Strategic partner: connect workforce plans and talent practices to business strategy.
- Technology and analytics: use HR information systems, automation and workforce data responsibly.
- Talent and skills development: identify emerging skill needs, reskill employees and support lifelong learning.
- Employee experience: promote engagement, well-being, inclusion and work-life balance.
- Change agent: guide organisational transformation, restructuring and new ways of working.
- Diversity and ethics: strengthen fair practices, accessibility, privacy and responsible decision-making.
- Remote and hybrid work: support collaboration, performance and inclusion across locations.
- Future HR requires business understanding, communication, analytical ability, adaptability and ethical judgement.

Quick revision: HR moves beyond administration towards strategy, analytics, talent, employee experience and change leadership.

24. Universal Declaration of Human Rights (1948)

Meaning — The Universal Declaration of Human Rights (UDHR) was adopted by the United Nations General Assembly on 10 December 1948. It sets out a common standard of fundamental human rights for all people.

Key points and explanations

- It contains 30 articles covering civil, political, economic, social and cultural rights.
- Core principles: all human beings are born free and equal in dignity and rights; rights apply without discrimination.
- Rights include life, liberty and security; freedom from slavery and torture; recognition before the law; fair trial; privacy; freedom of thought, conscience, religion, opinion and expression; peaceful assembly and association.
- It also recognises rights to work, fair conditions, rest and leisure, education, an adequate standard of living and participation in cultural life.
- Significance: provides an international human-rights standard; influences constitutions, laws, policies and human-rights advocacy.
- UDHR is a declaration, not itself a treaty; later international instruments developed binding legal obligations for states that ratify them.

Quick revision: Adopted 10 December 1948; 30 articles; universality, equality, dignity and non-discrimination.

25. Behaviours Involved in Bullying and Types of Workplace Bullying

Meaning — Workplace bullying is repeated, unreasonable behaviour directed towards an employee or group that creates risk to health, safety or dignity and may involve a power imbalance.

Key points and explanations

- Behaviours: repeated insults or humiliation; intimidation and threats; spreading rumours; social exclusion; unreasonable criticism; withholding information; setting impossible tasks; undermining work; persistent hostile communication.
- Verbal bullying: insults, shouting, threats or humiliating remarks.
- Social/relational bullying: isolation, exclusion, gossip or damage to relationships.
- Work-related bullying: unreasonable workloads, impossible deadlines, deliberate withholding of resources or unfairly undermining performance.
- Cyberbullying: hostile or humiliating conduct through email, messaging, social media or other digital channels.
- Effects: stress, anxiety, reduced confidence, absenteeism, lower productivity, turnover and a harmful organisational climate.
- Prevention: clear policy, safe reporting, prompt impartial investigation, manager training and protection against retaliation.

Quick revision: Look for repeated unreasonable conduct; distinguish verbal, social, work-related and cyber forms.

26. Strategies for Retaining Employees in an Organisation

Meaning — Employee retention refers to an organisation's ability to keep valued employees and reduce avoidable turnover.

Key points and explanations

- Competitive and fair compensation: provide pay and benefits appropriate to roles and labour-market conditions.
- Career development: offer training, promotion pathways, mentoring and internal mobility.
- Recognition: acknowledge contributions and provide meaningful feedback.
- Supportive leadership: build trust, communicate clearly and treat employees fairly.
- Positive work environment: promote inclusion, safety, respect and healthy relationships.
- Work-life balance: consider flexibility, leave and manageable workloads.
- Employee engagement: involve employees in decisions and listen to feedback.
- Onboarding and fit: provide realistic job information and support new employees during integration.
- Monitor turnover data and conduct exit or stay interviews to identify retention issues.

Quick revision: Retention depends on fair rewards, growth, recognition, leadership, culture, flexibility and listening.

27. On-the-Job and Off-the-Job Training Methods

Meaning — On-the-job training takes place while employees perform actual work; off-the-job training takes place away from the normal work setting.

Key points and explanations

- On-the-job methods: coaching; mentoring; job instruction; job rotation; apprenticeship; understudy assignments; shadowing. Advantages include practical experience, immediate application and lower separation from work; limitations include production pressure and variable trainer quality.
- Off-the-job methods: lectures; workshops; seminars; case studies; role play; simulations; vestibule training; e-learning and classroom instruction. Advantages include focused learning and a safe practice environment; limitations may include cost and difficulty transferring learning to the job.
- Choice depends on learning objectives, job risk, employee experience, available resources and the skills being taught.
- Training effectiveness should be evaluated through learning, behaviour change and work outcomes.

Quick revision: On-the-job = learn while doing; off-the-job = learn away from regular work.

28. Counselling and Characteristics of an Effective Corporate Counsellor

Meaning — Counselling is a helping process in which a trained person supports an employee in understanding concerns, exploring options and developing constructive ways to cope or solve problems.

Key points and explanations

- Workplace counselling may address work stress, interpersonal conflict, adjustment, performance concerns, personal difficulties affecting work and career issues.
- Confidentiality: protect employee information within professional and legal limits.
- Empathy and active listening: understand the employee's perspective without judgement.
- Communication: ask clear questions, reflect concerns and explain options.
- Objectivity: avoid imposing personal beliefs and manage conflicts of interest.
- Professional competence: understand counselling boundaries, use appropriate methods and refer to specialists when needed.
- Trustworthiness and respect: treat employees with dignity and maintain appropriate boundaries.
- Effective counselling supports well-being, problem-solving, adjustment and a healthier work environment.

Quick revision: Effective counsellor: confidential, empathetic, skilled, objective, respectful and aware of professional limits.

29. Types and Effects of Workplace Violence

Meaning — Workplace violence refers to threats, intimidation, harassment or physical acts that harm or create risk for people in a work-related setting.

Key points and explanations

- Criminal intent: violence by an outsider committing or attempting a crime, such as robbery.
- Customer/client violence: aggression by customers, patients, clients or service users.
- Worker-on-worker violence: aggression or threats between employees, including supervisors and subordinates.
- Personal-relationship violence: domestic or personal conflict that spills into the workplace.
- Physical effects: injury, disability and, in severe cases, death.
- Psychological effects: fear, anxiety, trauma, stress and reduced sense of safety.
- Organisational effects: absenteeism, turnover, reduced productivity, low morale, legal costs and reputational damage.
- Prevention includes risk assessment, security measures, training, clear reporting systems, prompt investigation, employee support and coordination with authorities.

Quick revision: Four broad sources: outsider/criminal, client, co-worker and personal relationship; effects are physical, psychological and organisational.

Final Exam Revision Checklist

- ■ Revise definitions and distinctions: HRM vs HRD; HRP and business strategy; diversity and multicultural organisation; training and development.
- ■ Memorise key frameworks: Big Five (OCEAN), Fayol's 14 principles, UDHR (1948), Six Sigma DMAIC and the stages of multicultural development.
- ■ Practise comparison answers: on-the-job vs off-the-job training; individual vs organisational diversity management; types of workplace violence.
- ■ Prepare workplace examples for HR planning, retention, performance appraisal, counselling, CSR, bullying prevention and change.
- ■ For legal questions, verify the latest statutory wording and provisions before reproducing article numbers or legal details.
